

PMI TAPE

Technical Data Sheet

PMI #380 Dual-Tack Pallet Tape

Description

PMI #380 Dual-Tack Pallet Tape is a two sided pallet tape designed to hold garments in place during the printing process. The adhesive that goes against the pallet is designed to peel cleanly directly from the pallet when removed. The adhesive that goes against the garment is tacky but not enough to stretch garments when removed. Lint can be wiped off of the Dual-Tack Pallet Tape with water and a sponge.

Available Sizes: 15"X36YD and 18"X36YD

Packaging

4 Rolls per Case

15"X36YD Case Size/Weight

Case Size: 10.5"X10.5"X16"

Case Weight: 25.0 LBS per Case

18"X36YD Case Size/Weight

Case Size: 10.5"X10.5"X19"

Case Weight: 30.0 LBS per Case

Total Product Thickness: 8.2 mil

Product Thickness without Release Liner: 4.0 mil

Release Liner Thickness: 4.0 mil

Adhesive Type: Proprietary UV-Cured Adhesive

Backing Type: PET Film

Adhesion: 7 oz/in

Tensile Strength: 94.32 oz/in

Made in the USA
